

# Katerra Bath Kits

The Katerra Bath Kit is an innovative delivery system engineered to reduce cost and increase the speed to occupancy.

### Precision Meets Innovation

Widely known to be one of the most challenging components of a building to deliver, we've reimagined bathroom assembly by applying systems-level thinking to optimize and simplify the process. Rooted in scalable and repeatable manufacturing and construction methodologies, the Katerra Bath Kit saves significant time and money.

Designed and manufactured with precision, the Katerra Bath Kit redefines bathroom construction. Now, a bathroom can be installed and finished by two people in less than one day.

### Benefits to Our Clients

#### Predictability

Precision design and manufacturing results in units that fit every time.

#### Schedule

One day. Two people. And greater control of the project schedule, increasing the speed to occupancy.

#### Efficiency

Higher level of organization and streamlined, standard installation methods, waste is eliminated and labor is optimized.

#### Specialized Trades Reduced

Reduces the need for specialized labor in the field.

#### Quality

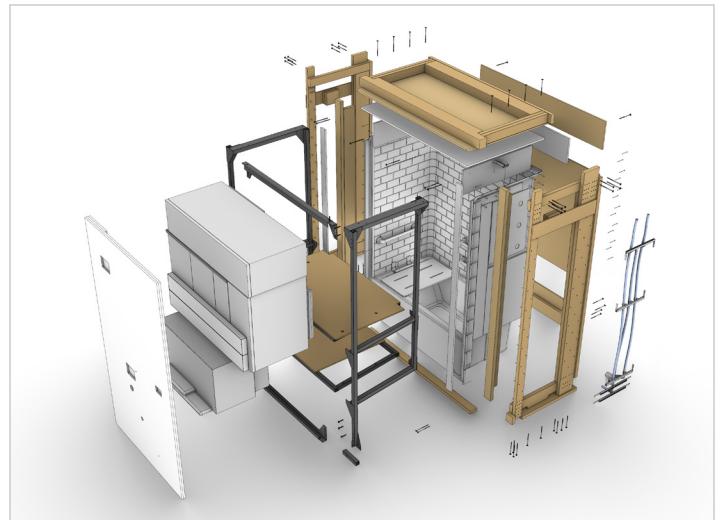

An innovative cradle delivery system is designed to eliminate component damage, resulting in lower defects and quality products every time.

#### Good, Better, Best

Tailored for a range of product customization options.

Katerra Bath Kits are packaged for maximum efficiency.
